Title: First Governor of Yew

Author: SunWolf  
-----

I wish to extend my greetings to all those present; My leige, Lords and Ladies, and fellow travelers. Allow me to introduce myself. I am SunWolf, the newly elected Governor of Yew.

In the past, the town of Yew has done a satisfactory job in defending against the orc raids and minimizing the damage during the town riots and protests of last year. When hard times fell upon the town of Yew, a soup kitchen detail was organized to help feed the hungry and clothing provided to those without. Together, we maintained a presence of support and weathered through those trying times. Over the years I have been fotunate enough to work with a number of great people, and I look forward to working with many more in the future for the greater good of the Town of Yew. Thank you
